Mert GÜRER

Personal Information

- **Korkut Street, No: 72/E, 34742, Kadiköy – Istanbul | 0534 069 9779 | mert.gurer@hotmail.com.tr**
- **Date and Place of Birth | 23.04.2001 - Kadiköy, Istanbul**

Profile Summary

- **An eager 3rd-year computer science undergraduate. Dedicated, reliable, punctual, and driven to accomplish great things. Motivated for success. Hard-working, self-paced learner. Values pastimes and hobbies. A team player that's waiting for the first professional software development position with excitement.**

Education

- **GEBZE TECNICAL UNIVERSITY | COMPUTER SCIENCE AND ENGINEERING | 2019 – PRESENT**

- **AFS (AMERICAN FIELD SERVICE) DOMINICAN REPUBLIC | INFORMATICS STUDY | 2019 – 2020**

Exchange Student at Instituto Politécnico Padre Bartolomé Vegh for informatics (HTML, CSS). I spent a year in the Dominican Republic learning about the traditions and people of Latin culture, practicing Spanish, living with host parents, and participating in AFS events.

- **BURAK BORA HIGH SCHOOL | 2015-2019**

Languages

- **Turkish, Mother Tongue**
- **English, Advanced (reading, writing, and speaking)**
- **Spanish, Intermediate**

Skill

Technical Skills

- C
- C++
- Java
- Linux
- Python
- Excel
- Flutter
- Dart
- Swift
- Arduino and Boards
- HTML
- CSS
- JavaScript (TypeScript)
- React

Soft Skills

- Team collaborator
- Like to teach and eager to learn
- Good communication skills
- Self-sustained
- Hard Working

Hobby Skills

- Tennis
- Ski
- Swimming
- Table Tennis
- Wind Surf
- Legos
- Video Games

Experiences

- **Personal Portfolio:** Made and customized by me with **React** and **TypeScript**. Has information about my experiences and my projects.
- **Kelebike App:** This mobile bike renting app that's made with **Flutter** and **Swift** to help the students of GTU to rent and use bikes with ease. It helps students and staff to communicate better by improving the time you have using the school bikes.
- **Hangman:** This is the classic game I made on mobile using **Flutter**. It has both game modes that you can play with your friends and solo mode where you can play by yourself with over 450 words.
- **Tick-Tack-Toe Bot:** In this game I made on **Java** you can play XOX with a bot that doesn't like to lose.
- **Pong:** This is the 70's classic game pong made in **C++**. You can play with your friend or against an AI that has 3 different difficulties.

Computer Engineering Courses Taken So Far

- **Introduction To Computer Engineering**
- **Introduction To Computer Science Laboratory**
- **Science and Technology**
- **Computer Programming Laboratory**
- **Culture of Science and Computation**
- **Discrete mathematics**
- **Circuits and Electronics**
- **Circuits and Electronics Laboratory**
- **Object Oriented Programming**
- **Data Structures and Algorithms**
- **Logic Circuits and Design**
- **Logic Circuits and Design Laboratory**
- **Software Engineering**
- **Programming Languages**

Volunteering

- **Volunteering Summer Camp / Norderney, Germany— 2018 June**

Maintenance of the storage places and construction of a prefabricated house for a children's summer camp.

- **Volunteering Summer Camp / Wismar, Germany — 2016 July**

Ran a house full of volunteers. Sailed and camped in the wildlife. Learned how to live in nature.
